### PROFESSIONAL SUMMARY

Full-stack software engineer building web applications across frontend, backend, data, and real-time features. Hands-on with JavaScript, TypeScript, React, Next.js, Node.js, NestJS, REST APIs, PostgreSQL, MongoDB, SCSS, and Docker. Brings a design-trained eye from an earlier CAD and Islamic Arts background, with AI-assisted tools used as a reviewed part of the development workflow.

### TECHNICAL SKILLS

**Frontend:** JavaScript, TypeScript, React.js, Next.js, Redux, HTML5, CSS3, SCSS/Sass, Tailwind CSS, Material UI, Bootstrap, responsive design

**Backend:** Node.js, Express.js, NestJS, REST APIs, Socket.IO, authentication, RBAC

**Data:** PostgreSQL, MongoDB, Firebase

**Tools & Delivery:** Docker, Git, GitHub, Postman, VS Code, Figma Plugin API, SVG/SVGGO pipelines

**Additional:** Python (working knowledge), Microservices (foundational knowledge), Codex, Claude, Cursor, GLM

### PROFESSIONAL EXPERIENCE

**Software Engineer | GoldenTik (formerly CartBuzz) | Jan 2026 - Present | Amman, Jordan**

- Contribute across frontend and backend delivery for a private multi-vendor e-commerce platform using Next.js, NestJS, TypeScript, SCSS, Docker, and Python where required.
- Translate product requirements into maintainable implementation while keeping proprietary product and client details confidential.

**Full-Stack Developer (Contract) | Vero IT | May 2025 - Dec 2025 | Remote**

- Built client web applications using React, Next.js, Node.js, Express.js, TypeScript, PostgreSQL, and MongoDB.
- Built and integrated REST APIs, authentication flows, real-time features, and data models for product-specific workflows.
- Used Git, GitHub, Postman, and Firebase for source control, API validation, and application delivery.

**Freelance CAD Designer | Self-Employed | Jul 2022 - Oct 2023 | Amman, Jordan / Remote**

- Produced precise mosaic and architectural patterns in CAD and coordinated with artisans and production teams to translate geometric concepts into production-ready work.

### SELECTED PROJECTS

**EV Solution JO | React.js, Node.js, MongoDB, PostgreSQL**

- Built a web platform for DC and AC charging operations, combining station and session monitoring, live dashboards, and usage and performance reporting.
- Implemented the application with React, Node.js, MongoDB, and PostgreSQL.

**Booster Icon System | TypeScript, Node.js, Next.js, SVG, SVGGO**

- Built a framework-agnostic SVG package and local dashboard for validating, editing, searching, and packaging 25,396 SVG files across 4,154 names and 7 styles.
- Produced ESM, CommonJS, TypeScript, direct-SVG, and package outputs with automated validation.

**TickIn | Next.js, React.js, PostgreSQL, Socket.IO**

- Built a team collaboration platform with task tracking, roles and permissions, real-time events, and messaging.

### EDUCATION

**Immersive Full-Stack Web Development | MERAKI Academy | Oct 2023 - Mar 2024**

- 400+ hours of hands-on, project-based full-stack development.

**Bachelor's Degree in Islamic Arts | WISE University | Jul 2019 - Jul 2023**

- Islamic architecture, decorative arts, geometric systems, and design principles.
