

RASHED MOHAMMAD ALFUQAHA

Full-Stack Software Engineer

Amman, Jordan | +962 77 170 9080 | rashedmohammadalfuqaha@gmail.com | rashedalfouqaha.netlify.app | linkedin.com/in/rashedalfuqaha | github.com/Rashedalfouqaha

PROFESSIONAL SUMMARY

Full-Stack Software Engineer delivering production web applications with TypeScript, React, Next.js, Node.js, and NestJS. Builds responsive product interfaces, REST APIs, authentication and RBAC workflows, real-time features, and PostgreSQL/MongoDB data layers. Uses AI-assisted development for faster exploration and implementation while retaining ownership of architecture, code review, testing, security, and final engineering decisions.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python (emerging)

Front-End: React, Next.js, Redux, SCSS, Tailwind CSS, Material UI, Responsive UI

Back-End: Node.js, Express.js, NestJS, REST APIs, GraphQL, Socket.IO

Data: PostgreSQL, MongoDB, Firebase

Tools & Delivery: Docker, Git, GitHub, Postman, VS Code, Figma Plugin API

Engineering: Authentication, RBAC, API Integration, Real-Time Systems, Package Development, Microservices (emerging)

AI-Augmented Workflow: Codex, Claude, Cursor, GLM - reviewed through type checks, linting, tests, and manual validation

PROFESSIONAL EXPERIENCE

Software Engineer - GoldenTik (formerly CartBuzz), Amman, Jordan Jan 2026 - Present

- Deliver full-stack changes for a private multi-vendor e-commerce platform using Next.js, NestJS, TypeScript, SCSS, Docker, and project-required integrations.
- Implement and review responsive interfaces, REST API integrations, and data-layer changes while protecting confidential product and business information.
- Apply Codex, Claude, Cursor, and GLM to scoped exploration and implementation, then validate generated changes through diff review, type checks, linting, tests, and manual verification.

Freelance Full-Stack Developer - Independent & Vero IT May 2025 - Dec 2025

- Delivered responsive full-stack web applications using React, Next.js, Node.js, PostgreSQL, and MongoDB from requirements analysis through deployment.
- Built REST APIs, authentication and RBAC flows, real-time features, and responsive product interfaces independently and within a delivery team.

Freelance CAD Designer - Independent Jul 2022 - Oct 2023

- Produced precise mosaic and architectural patterns and coordinated technical specifications with artisans and production teams.

SELECTED PROJECTS

EV Solution JO | React, Node.js, MongoDB, PostgreSQL

- Built a full-stack operations platform for DC/AC EV charging with live station and session monitoring, reporting, and analytics.

Booster Icon System | TypeScript, Node.js, Next.js, SVG, SVGO

- Engineered a framework-agnostic package pipeline for 25,396 SVG files with naming, security, parity, and runtime validation gates.

Figma Design Intelligence Plugin | TypeScript, Figma Plugin API

- Built a plugin that extracts design-system structure, prototype graphs, Smart Animate relationships, and interaction metadata.

EDUCATION

Immersive Full-Stack Web Development - MERAKI Academy Oct 2023 - Mar 2024

400+ hours of hands-on, project-based full-stack development training.

Bachelor's Degree in Islamic Arts - WISE University Jul 2019 - Jul 2023

LANGUAGES

Arabic (Native) | Turkish (Fluent) | English (Basic Conversational Proficiency)
